VINEYARD & WINERY

*"Where the sun shines through the mist."*

## Spring "Break"

Come visit Callaway Vineyard & Winery this season and you will experience the annual Spring miracle...bud break.

With spring in the air, the sun has begun to awaken the vineyards from winter's slumber. While weather conditions can still be quite chilly, the dormant grape vines are starting to leaf out. Grape vines have an annual growth cycle that corresponds to the seasons. The first sign that spring has arrived is bud break, the emergence of the shoots that will grow to bear grapes. It is a special time of year, announcing that winter has ended and that breezy days, cottony clouds and green vineyards are just around the corner.

The winery is also "springing" to life! Renovations have begun on the restaurant and we are anxious for its grand opening later this year. Our new website is currently under development with plans to launch in June! We have a wonderful year of special events planned, as well as some limited edition wines that are to be released early this summer.

We have lots in store for the future. We look forward to seeing you soon at Callaway Vineyard & Winery!

# "Spring into Summer Special" ...

This is the perfect time of year to enjoy a nice chilled glass of our Rosé of Cabernet out on the patio or by the pool. Therefore, it seemed like the ideal wine to feature from May through July with our "Spring into Summer" Special prices.

## stop & smell the rosé...

2004 SPECIAL SELECTION  
ROSÉ OF CABERNET - \$18

30% "Spring into Summer" Special - \$12.60  
40% discount for Legacy Club Members - \$10.80

## wine notes

Leaving the grapes on the skin after crush for about six hours helped to achieve the perfect rose color of this wine. A slow, cool fermentation followed, allowing the fruitiness of the Cabernet to remain crisp, resulting in an intensely aromatic wine full of bright strawberry flavors.
